

Contracts for Barrier Projects Approved by County Supervisors

Supervisor Burton W. Chace has announced award of two new contracts for additional work on the sea barrier project being developed along the west coast of the county by the Flood Control District.

A \$189,908 pact was awarded by the Board of Supervisors to the United Geophysical Corp. of Pasadena for installation of Unit 4B of the undertaking. This will involve drilling 26 observation wells to study effectiveness of the program.

CHACE SAID wells will be drilled along Prospect Avenue between Torrance Boulevard and Pacific Coast Highway and at locations along Ronald Avenue, Onyx Street, Marialinda Street, Irena Avenue, Garnet Street, Camino Real, Ruby Street, Via Los Altos, and Sharrynne Lane.

The low bid for this unit ran

\$58,476 less than the engineer's estimate for this work, the Supervisor noted.

The Board also awarded a \$69,544 contract to a joint venture consisting of Ted R. Gregory and Tereon Co. of Long Beach for construction of Unit 1C of the antibrine project. This work involves installation of 12 observation wells in South Prospect Avenue between Anita Street and Vincent Avenue

and an additional well in Del Amo Street just west of Prospect.

CHACE REPORTED this bid will also result in savings inasmuch as it ran \$28,650 less than the engineer's estimated cost.

It will take about six months to complete work on Unit 1C and about eight months will be required for Unit 4B.

The two units are part of the Flood Control District's projected 11-mile barrier to halt further sea contamination from Playa del Rey south to the Palos Verdes Hills, Chace said.

It is being built under the direction of District Chief Engineer M. E. Salsbury as a part of the agency's overall water conservation program, Supervisor Chace added.

Aerospace Team Needs Technicians

Continued progress toward more technical planes and weapons systems has created a need for trained technicians in today's Air Force, says Sgt. Clark B. Graham, local Air Force recruiter.

Graham said former servicemen, particularly those with technical training, can use their skills to full advantage in the growing aerospace team.

"Service career opportunities for the trained technician have never equaled what they are in the Air Force today," says Graham. Rapid scientific and technological advances have created a wealth of opportunity, according to the sergeant.

Detailed information on the many programs open may be obtained by calling Graham at the Recruiting Station or visiting the station at 1616 Cabrillo Ave.

Student Body Election Held At El Camino

The United Collegiate party of El Camino College maintained domination over campus politics for the third consecutive semester with the election of 16 candidates to the 17 student body offices open.

Officers installed were: Larry Collins of Torrance, president of Associated Students; Mike Hood, AS vice president; Don Almar of Torrance, commissioner of finance; Sue Brazelton, commissioner of rallies; and Spencer Douglas, commissioner of health education and welfare; and

Noel Deitrich, commissioner of activities; Bernard Crane of Torrance, commissioner of athletics; Ron Ivy, commissioner of assemblies; E. Babic of Torrance, commissioner of public relations; Ron Hagen, commissioner of publications; and John Drulliner and Sid McWhirter, Associated Men Students president and vice president; Janice Peppin and Yvonne Harless, president and vice president of Associated Women Students; and

Ken Davis of Torrance, sophomore class vice president. Identity of the new president will be determined following run-off elections.

Larry Kool, freshman president, and Carol Bolling, freshman vice president.
